

Nature's palette

This activity shows how colourful nature can be. You can create an artists palette using things around you!

Resources

Double sided sticky tape on strips. Leaves, grass, twigs and anything natural around you. Can you find every colour?

Instructions

1. **Peel off the tape to the sticky layer underneath.**
2. **Find natural things such as leaves and petals and tear just a little bit off to stick on your palette.**
3. **Keep adding to your palette until you can find as many colours as possible.**
