

Sound Map

This activity will show just how many sounds can be heard in the wild when you listen carefully. How many different sounds can you hear?

Resources

A blank sheet of card and a pencil.

Instructions

1. Draw an 'x' on the card in the middle of the page to mark where you are!
2. Listen carefully for any sounds you hear and mark them using symbols or drawings such as swirls, shapes or words. Each sound can have a different symbol!
3. Try and mark them on the map in relation to where you are (ie, behind you, in front of you or to the right/left)
